PROFESSIONAL SUMMARY

Frontend Developer with 4+ years of experience building responsive websites, landing pages, and web applications using HTML5, CSS3, JavaScript, and WordPress. With 1+ years of hands-on React.js development experience, built production-level applications including an LMS Dashboard using React Hooks, Context API, React Router DOM, and REST API integration. Skilled in developing mobile-first responsive layouts and delivering end-to-end solutions across education portals and lead generation platforms. Proficient in Tailwind CSS, Bootstrap, Git, and modern frontend development practices. Passionate about building scalable, user-friendly web applications.

TECHNICAL SKILLS

Frontend	HTML5, CSS3, JavaScript (ES6+), React.js, Responsive Design, Mobile-First Development, Flexbox, CSS Grid

CMS and SEO	WordPress, Yoast SEO, WPForms, Ajax Search Pro, Subdomain and DNS Management
Lead Gen and CRM	Google Ads Landing Pages, Google Sheets, CRM Integration, Gallabox WhatsApp API

WORK EXPERIENCE

Frontend Developer <i>SODE Counselling Services LLP, Noida, New Delhi</i>	September 2021 – December 2025
---	--------------------------------

PROJECTS

Learning Management System (LMS) Dashboard

Technologies: React.js, JavaScript ES6+, Tailwind CSS, React Router DOM, Context API, Axios, REST APIs, Git, GitHub

- Built a fully responsive LMS web application for managing students, courses, and enrollment using React.js component-based architecture.
- Developed reusable UI components including dashboards, course listings, student profiles, and progress trackers integrated with REST APIs via Axios.
- Implemented Context API for global state management including authentication and user session, and React Router DOM for protected multi-page navigation.
- Applied Tailwind CSS for mobile-first responsive design and tested across multiple browsers and screen sizes.
- Handled form validation, loading states, skeleton screens, and error boundaries for production-level UX.

Figma & PSD to Pixel-Perfect Web Conversion

Technologies: HTML5, CSS3, JavaScript, React.js, Tailwind CSS

- Converted Figma and PSD design files into pixel-perfect, fully responsive web pages with precise accuracy to design specifications.
- Ensured exact match of typography, spacing, colors, and layout across all screen sizes and devices.
- Delivered clean, maintainable HTML/CSS and React component code from design mockups.

Responsive Multi-Page Website

Technologies: React.js, Tailwind CSS, React Router DOM

- Developed a fully responsive multi-page website using React.js ensuring seamless user experience across mobile, tablet, and desktop.
- Implemented client-side routing with React Router DOM for smooth page transitions without full page reloads.
- Used Tailwind CSS utility classes for consistent mobile-first styling and rapid UI development.

Google Ads Lead Generation Landing Pages

Technologies: HTML5, CSS3, JavaScript, Pabbly Connect, Google Sheets, CRM, Gallabox WhatsApp API

- Developed 30+ standalone responsive landing pages for Google Ads campaigns, each optimized for a specific course or university offer.
- Built end-to-end lead automation pipeline including form submission, Pabbly Connect, Google Sheets, CRM, and WhatsApp notification to student.
- Achieved measurable improvement in lead conversion through fast load time, clear CTA hierarchy, and mobile-first design.

distanceeducationschool.com — Education Portal (Live)

Technologies: WordPress, HTML, CSS, JavaScript, WPForms, Yoast SEO, Ajax Search Pro, Gallabox, Pabbly

- Live production website demonstrating real-world frontend skills: responsive layout, plugin and API integration, SEO, and large-scale content management.
- Managed 100+ subdomains, each with unique content and lead capture forms, handling full frontend management at scale.
